TO HIS EXCELLENCY JOHN BARON WODEHOUSE,

LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND,

&c. &c. &c.

MAY IT PLEASE YOUR EXCELLENCY,

I had the honour of submitting, on the 18th of last September, General Abstracts, showing, by counties and provinces, the acreage under the various crops, and the number of live stock in Ireland in 1865; also the emigration from Irish ports during the first seven months of the same year. I beg now to bring under your Excellency's consideration Tables which give the *estimated average* produce of the principal crops; and the total emigration from this country in 1865.

The Tables relating to the *average* produce of the crops per acre have been compiled, as in former years, from information obtained by members of the Constabulary Force selected for their intelligence—from practical farmers, and others conversant with the yield in the electoral division for which the Return was made. The names and residences of these parties are stated on the forms, by the Enumerators.

On the Returns being received in this Office, they were copied by electoral divisions, and forwarded to the Chairman and Board of Guardians of each union for revision; and it is very satisfactory to observe that out of the entire number (3,438) of electoral divisions, I have been favoured by the Guardians with *revised* returns for 2,652. Copies of the forms and circulars used in procuring the information are given at pages 46 and 47.

The areas under each of the principal crops, as published last September in the "General Abstracts," have been carefully revised, and the corrected totals made use of in the present calculations; so that the *average* yield, as given in these Tables, is as approximately accurate as can reasonably be expected in returns of this description.

Acreage under Cro

The acreage under crops in 1865, as compared with 1864, shows that wheat decreased by 9,494 acres; oats, 69,658 acres; turnips, 3,143 acres; and flax, 50,260 acres. Barley increased by 4,402 acres; bere and rye, 1,197 acres; potatoes, 26,536 acres; mangel wurzel, 316 acres; cabbage, 1,801 acres; and hay, 68,924 acres. The *total* net decrease in the area of these crops being 29,379 acres.

Estimated produce p statute ac

The crops which show a diminution in the *estimated acreable* produce in 1865, compared with 1864, were—Wheat, which decreased 0·3 cwt.; barley, 1·0 cwt.; bere, 1·6 cwts.; potatoes, 0·5 ton per acre; turnips, 0·4 ton; and flax, 9·0 stones per acre. The crops which show an increase are—Oats, 0·2 cwt.; rye, 1·9 cwts.; mangel wurzel, 2·8 tons; cabbage, 1·1 tons; and hay, 0·2 of a ton per acre.

Total produce of the Crops.

In cereals there was a *total decrease* of 246,667 quarters, of which 48,999 were wheat; 166,605 oats, 29,892 barley, and 1,171 bere; rye increased by 5,684 quarters; potatoes, notwithstanding an increased acreage in 1865, gave a total produce less by 446,398 tons, caused by a decrease in the average yield per acre; turnips decreased by 165,976 tons, owing to a smaller acreage and also to a reduction in the acreable yield; flax also shows a decrease of 24,945 tons, from the same causes; mangel wurzel gives an *increase* of 44,653

tons, cabbage of 52,877 tons, and hay 461,554 tons, owing to a larger area and produce per acre in 1865, compared with 1864.

The *acreage* under the principal crops in 1864 and 1865, and the increase or decrease in the latter year, are given in Table I.; the *estimated average produce* per acre and the *total yield* are shown in Tables II. and III.; and a comparison of the *average* produce of the crops per acre in each county and province in 1864 and 1865 is given in Table IV.; and in Table V. the acreage under the principal crops, the *estimated* yield per acre, and the total produce, are exhibited for the series of years from 1851 to 1865, inclusive.

METEOROLOGICAL OBSERVATIONS.

Meteorological Observations.

I beg to give, in connexion with the Agricultural Statistics, the following abstract of the Meteorological Observations taken at the Ordnance Survey Office, Phœnix Park, for which I am indebted to the courtesy of Captain Wilkinson, R.E.

The barometer was highest during the year 1865, at 9.30, A.M., on the 15th of December, when it stood at 30·827,—the wind blowing from the S.W.; it was lowest on the 14th of January, at the same hour, with the wind from the W.N.W.,—when it was 28·540 inches.

The highest temperature in the air during the year was 83·9° on the 22nd of June, and the lowest 20·4° on the 20th of January. Rain or snow fell on 178 days, being nearly six months of wet days in the year; the greatest rainfall in 24 hours was 1·355 inches on the 10th of August, with the wind from the S.W. The prevailing wind was from the W., from which point it blew for 99 days; from the S.W. it came for 75 days; from E., 60; S., 26; S.E., 25; N., 25; N.E., 23; and N.W., 18; and it was calm 14 days. The total pressure of the W. wind was 147·58 lbs., being an average of 1·49 lbs. to the square foot. The strongest wind blew from the S.W. on the 30th December, when the pressure was 36 lbs. per square foot.

EMIGRATION FROM IRISH PORTS IN 1865.

Emigration from Irish Ports.

The number of emigrants leaving the ports of Ireland in 1865, was 103,096, of whom 56,206 were males, and 46,890 females. The total number who emigrated in 1864 was 114,903,—there was thus a *decrease* in 1865 of 11,807. The number from each Province in these two years is given in Table VII., and the total emigration since 1851, by Counties and Provinces, in Table VIII.

SCUTCHING MILLS.

In consequence of the great importance attached to the extended cultivation of flax in Ireland, I have given a detailed Table (commencing at page 23), showing by Provinces and Counties, the Barony, Parish, and Townland in which each Scutching Mill is situated, the number of Stocks and Handles in each Mill, and the number of weeks during which the Mill was at work, from 1st June, 1864, to the 31st of May, 1865. These Mills, it is satisfactory to observe, have increased in number with the larger area under flax, in all the Provinces, as will be seen from the subjoined statement, the particulars of which were obtained by the Enumerators, in each year from 1861 to 1865, inclusive :— Scutching Mills.

With regard to these various returns, I have, as in former years, to express my respectful acknowledgments for the assistance afforded to the Enumerators by the landed proprietors and tenant farmers of Ireland, who readily furnished the required information respecting the *average* yield of the crops. I have also to offer my thanks to the many Poor Law Guardians who revised the Returns of Produce,—and to the Metropolitan and Provincial Press, for their valuable aid in making known the importance of these Statistics. It will be satisfactory to your Excellency to learn that the members of the Constabulary and Metropolitan Police to whom the collection of the Returns was intrusted, performed this duty in their usual efficient manner; and to the officers of both these forces my best thanks are due for their courteous attention to all my communications.

I have the honour to be,
Your Excellency's
Very faithful servant,
WILLIAM DONNELLY,
Registrar-General.

CIRCULARS

AND

COPIES OF THE FORMS USED IN OBTAINING THE AVERAGE YIELD OF THE CROPS PER ACRE, FOR 1865.

General Register Office,
5, Henrietta-street, Dublin,
20th October, 1865.

SIR,

You will receive herewith blank copies of "Form C," referred to in the "General Instructions" addressed to the Enumerators on the 20th of last May, in order to enable you to procure Returns of the *Rates of Produce* of the various Crops grown in *each* of the *Electoral Divisions* mentioned in the enclosed List,—which should be sent back to this Office with these Returns—*in one file*—when completed.

I beg you will be so good as to select for this service Enumerators known to you for their intelligence and acquaintance with the parties resident in the *Electoral Divisions* for which the Returns are required. Instructions as to the method of filling the Forms are printed on them. *Pray direct the Enumerators to pay particular attention to these instructions.*

From the friendly co-operation and assistance afforded to the Enumerators by all ranks and classes when collecting the Agricultural Returns for this year, I confidently trust that by making inquiries from the resident Gentry, Clergy, and intelligent Farmers in the District, a valuable approximation will be arrived at as to the *average* Rates of Produce per Acre of the various kinds of Grain, Potatoes, and other Crops grown in the several Electoral Divisions:—that being the object of this Return,—to which *accuracy, as far as possible*, can alone give any real value.

Your attention is particularly requested to this subject, in consequence of the increasing importance of Agricultural Statistics, and I trust you will be enabled to forward the Returns for your District to this Office *on or before* the 10th of November, in order that a General Abstract of the results may be compiled and submitted for the consideration of His Excellency the Lord Lieutenant.

It is my intention, as in former years, to solicit the assistance of the Boards of Guardians on this difficult question, in order to procure their opinions as to the Rates of Produce in the several Electoral Divisions. This information will form a valuable auxiliary to that obtained through the Constabulary.

I am, Sir,

Your obedient servant,

WILLIAM DONNELLY, *Registrar-General.*

INSTRUCTIONS.

1. In filling in the Rate of Produce, the *yield* will be stated per *Irish* and also per *English* or *Statute* Acre, for *each* Crop, *and the Enumerator will be careful to enter the Rate in the Weights* (Act 25 and 26 Vic. cap. 76) mentioned opposite to the respective Crops named on the other side of this Form. It is particularly to be borne in mind that the average yield per Acre is for the *entire* Electoral Division—not for any individual Farm or portion of the Electoral Division.

2. One Form will be filled by the Enumerator for *each Electoral Division*, as per List furnished to the Sub-Inspector.

GENTLEMEN,

I beg to enclose copies of Returns showing the *estimated average produce* by the *English*, and also by the *Irish* Acre, of the various crops grown in 1865, within each Electoral Division of the Union of in order to procure from the Guardians their opinion as to whether the AVERAGE PRODUCE per Acre,—obtained by the Enumerators from resident Landholders,—fairly represents the yield of the respective crops.

In case the Guardian signing the Return considers any *rate* entered upon it to be *above* or *below* what it should be, columns are provided in which to insert the *corrected rate.*

As these Forms may be filled without much trouble, I shall feel much obliged if the Guardians will be so good as to favour me with their opinion respecting the produce of the various crops in their Union, and thus aid in increasing the value of these Returns, which are of so much general importance to the community.

May I request you will be so good as to give directions to the Clerk of your Board to *return these Forms to me as soon as possible*, as they are required to assist in compiling for publication the Table of *estimated* average produce of the Crops in 1865.

In case it is inconvenient to obtain the signature of an Ex-Officio or Elected Guardian, particularly connected with any Electoral Division, the signature of any other Guardian acquainted with the District will be sufficient;—or, if these *average rates of produce* are discussed and decided upon at a Meeting of the Board, the signature of the Chairman, or of the Clerk, with his approbation, will answer the purpose.

I take this opportunity of expressing my obligations to the many Guardians who have been so kind as to assist me in the revision of the Returns of the *average* produce in 1864, and I trust that, on public grounds, I may be excused for soliciting the opinion of your Board on this subject.

Communications to this Office NEED NOT be prepaid.
